

BUSINESS REAL ESTATE AND ESCROW

The Business Real Estate Program is designed to provide the student with the comprehensive knowledge needed to enter or invest in the real estate industry. A progressively challenging course curriculum begins with learning the vocabulary terms in both the principles and practices courses. Completing both of these state-mandated courses will help prepare students for real estate salesperson and broker license exams.

Students seeking to progress to a real estate broker's license can select from an array of robust **Real Estate electives** at Victor Valley College, include Finance, Law, Appraisal, Economics, Marketing, Office Administration, and Property Management courses. Prospective real estate investors, community members, and those desiring career employment in various real estate professions are welcome to enroll in one or more courses to supplement their career path.

Victor Valley College offers an Associate of Science (p. 1)(A.S.) **degree** in Business Real Estate. Also, the two certificate programs provide structured approaches to the coursework. The **9-unit Certificate** includes the three courses and electives necessary to take the state's Real Estate Salesperson's examination, while the **18-unit Certificate** is designed to lead to the complementary A.S. degree. Courses are offered in convenient formats, including an evening schedule for face-to-face classes, online, and remote learning.

Real estate professionals fulfill needed services in the local community and can take advantage of many career benefits. Students may choose sales careers because of the time freedom, flexible schedule, and unlimited earning potential. The real estate industry contributes positively to the U.S. economy and offers many income opportunities for professionals. Besides sales, real estate agents and brokers can also manage or develop a property, working in either the residential or commercial property sectors. Victor Valley courses help prepare students to meet the career demand in the local marketplace.

While land ownership is a tenet of the American Dream, a home fulfills the basic need for shelter, and homeownership can help families build generational wealth. The sale or purchase of a home (or other real property) is often the single largest business transaction for most people. Consequently, they often seek the professional opinions and assistance of real estate salespersons, brokers, and appraisers. These professionals are familiar with the various forms of financing available in any given market. Real estate professionals keep abreast of their county or city planners' actions and become familiar with the zoning laws, tax laws, and real estate contract laws to serve their clients better.

Opportunities abound in the finance, real estate, insurance, rental, and leasing industry, which added the most value to the gross domestic product (GDP) in the U.S. economy. (Reference: statista (<https://www.statista.com/statistics/247991/value-added-to-the-us-gdp-by-industry/>)). The Occupational Outlook from the U.S. Bureau of Labor Statistics predicts strong future demand for real estate agents and brokers based on market trends. (Reference: US Bureau of Labor Statistics - Occupational Outlook Handbook (<https://www.bls.gov/ooh/sales/real-estate-brokers-and-sales-agents.htm>)).

Career Opportunities:

Real Estate Careers that require formal education and/or licensing include: Real Estate salesperson/broker (residential), real estate

salesperson/broker (commercial), real estate brokerage owner, the property manager (residential), asset manager/leasing agent (commercial), real estate assistant, transaction coordinator (TC), mortgage lender/loan broker, appraiser, and HOA community manager.

Other real estate professional careers include corporate employee, escrow officer/rep, home inspector, inside sales agent (ISA), investor, mortgage lender (mortgage banker or mortgage broker), natural hazard disclosure rep, property tax assessor (county), settlement agent, title officer/rep, and resident manager.

Real estate related industries include: Attorney (specializing in real estate), marketing / social media, photography / aerial drones, construction / building & repairs, staging / interior design, architecture / building design, urban planning & design and property cleaning/maintenance.

Faculty

Pierce Brown, Regina

Transfer

Not usually a transfer major. Many Business Escrow and Business Real Estate courses transfer as electives or fulfill subject credit requirements. Students in this program often choose to pursue a bachelor's degree in Business Administration. See **Business Administration 2.0, AS-T** for transfer requirements.

Business Real Estate and Escrow, AS

State Control Number: 10788

Program Code: BRE.AS

Approved for Federal Financial Aid: Yes

The Business Real Estate and Escrow major requires 18 units from any of the certificates or from any Business Escrow or Business Real Estate coursework. BESC 138 and BRE 138 Cooperative Education Business Real Estate may be used as elective credit, but may not be used to fulfill major requirements.

To earn this degree, complete the major coursework with "C" grades or better and all of the following graduation requirements: 60 minimum degree-applicable units (including a maximum 4 units of activity); 2.0 minimum overall GPA; 12 degree-applicable units through VVC; Information Competency; Global Citizenship; Kinesiology, and the VVC General Education pattern (<https://catalog.vvc.edu/degrees-certificates/vvcge/#vvcge>). Courses may count in one area only, either in the major or in a general education category. Courses counted in one AA/AS major may not be used in another AA/AS major.

Business Real Estate Apprentice Certificate of Career Preparation

State Control Number: N/A

Program Code: BREAPP.CERT

Approved for Federal Financial Aid: No

To participate (sit) for the real estate salesperson's exam, California Real Estate Law requires that prospective real estate licensees complete college-level courses in Real Estate Principles, Real Estate Practices, and one additional elective from the Group II list. This certificate program provides students with courses they need to comply with that law. This certificate, along with the successful completion of the California Real

Estate Salesperson's exam, enables students to obtain employment as a real estate licensee within the state of California.

BRE 138 Cooperative Education Business Real Estate (1-8 Units)

Cooperative Education is a key element of Victor Valley College's comprehensive approach to career development. Cooperative Education is a 16-, 12-, or 8-week course that enables students to receive college credit for paid or unpaid work opportunities. This course helps students gain valuable on-the-job work experience while providing practical education, best practices in professional development, and academic guidance through the course of their work opportunity. The combination of practical experience and curricular development empowers students to be more competitive, efficient and valuable employees upon completion of this program and/or their academic program trajectory. The course is ideal for students who are cross-training at their current worksite for upward mobility or seeking career changes, as well as those looking for entry-level occupational training through work-based learning experiences such as through an internship. Cooperative Education transforms community businesses, industries, and public agencies into expanded educational training laboratories. Credit is awarded on the basis of learning objectives completed and the number of hours the student trains. Students must create/complete new learning objectives each semester they enroll. Students may utilize their present work sites. More details are available in the Cooperative Education Office, (760) 245-4271, ext. 2281. The office, located in the Academic Commons, is open Monday-Thursday, 8:00 a.m.-1:00 p.m., 2:00-6:00 p.m., and by appointment.

Program Learning Outcomes

Program Learning Outcomes (PLOs) are statements of the kind of learning a program hopes a student will achieve. The PLOs describe the knowledge, skills, problem-solving, communication and values that apply to all certificates and/or degrees within that program.

Upon completion of this program, students should be able to:

1. Effectively communicate real estate concepts with their peers and with those in the real estate industry.
2. Express and demonstrate a breadth of knowledge that deal with the principles of real estate, its laws, financing structures, valuation concepts, and marketing principles.
